

Bringing hospitality, tourism, transport and events back for *good*.

Surrey 2023: Scientific tracks announcement

The School of Hospitality and Tourism Management at the University of Surrey is delighted to announce the scientific tracks within the Surrey 2023 Conference, to be held from 5-7 July 2023 on our campus in Guildford, UK.

Under the theme of “**Bringing Hospitality, Tourism, Transport and Events Back for Good**”, the Surrey 2023 Conference will bring together researchers, educators, students, practitioners and policymakers to share visions, expertise, experiences and best practices in hospitality, tourism, transport and events to create an action framework for building a more responsible and resilient industry. We invite contributions in the following six scientific tracks:

- Track 1. Human Flourishing
- Track 2. The Environment
- Track 3. Digital Futures
- Track 4. Education
- Track 5. Business and Policy
- Track 6. Competitiveness

In addition, conference attendees can look forward to activities from five further Special Tracks:

- Postgraduate Research
- Gender, Entrepreneurship and Social Policy
- Human Rights and Major Events
- Sustainable Aviation
- Open Research

At the conclusion of the conference, we aim to produce **The Surrey Good Bucket List**, a list of targets and accomplishments that we set to achieve in the next 5 - 10 years, along with guiding principles for what constitutes *good* for hospitality, tourism, transport and events. To optimise the impact of the conference, the consensus will be developed into academic papers and policy briefs.

The Surrey 2023 Conference will implement a **decarbonisation** plan by covering up to 50% of the carbon offset costs for all international delegates travelling to Surrey by air.

Calls for contributions for each of the six scientific tracks will be circulated by the end of October 2022. Abstract submission details and deadlines will be included in the six track calls and submission will take place via EasyChair: <https://easychair.org/conferences/?conf=surrey2023>

Prof Scott Cohen, Overall Chair - s.cohen@surrey.ac.uk

Dr Jonathan Skinner, Programme Chair - jonathan.skinner@surrey.ac.uk
